We accomplish this by preparing 21st century learners to be responsible members of the global society. We use exceptional teaching practices, cutting-edge technology, and real-world experiences to create profound learning opportunities for every student. Students learn to be flexible and resilient learners as they adapt to an ever changing global environment. SRTMS develops the whole child and fosters a desire for lifelong learning. We utilize a multidisciplinary, K-8 model to provide instruction based on state standards while making education relevant and real.
