

Business Services

Business Services

The Business Services Division supports the District's daily instructional and non-instructional activities in order to ensure excellent opportunities for students and a positive, safety-compliant environment for employees. This division provides multi-department oversight as well as program facilitation for risk management, workers compensation, and the District's safety committee. Safety is a top priority accomplished through adherence to best practices and District policies & procedures.

It is the policy of our District to provide a safe and healthful workplace. Every employee is responsible for the safety of himself/herself as well as others in the workplace. To achieve our goal of maintaining a safe workplace, everyone must be mindful of safety at all times. In compliance with California law, and to promote the concept of a safe workplace, the District maintains an Injury and Illness Prevention Program as part of a comprehensive approach to safety and risk management.

A comprehensive assessment of safe work practices can be found in our safety handbook and other posted resources.
