Dear PVSD Staff and Community,

I am so proud of our community for the progress we have made in our fight against COVID-19. On Tuesday, the County of Ventura announced in a news release in English and Spanish explaining that Ventura County has moved into the red tier on the State’s Blueprint for a Safer Economy. The Ventura County Office of Education shared their own press release to provide additional context for schools. As stated by the County Office, there are complexities each school system must work through in order to safely reopen.

Small Cohort Guidance Groups
The State has provided the opportunity to bring back small groups of students before we reopen. We will begin by bringing back special education programs on site October 12th, our students enrolled in the Preschool Early Education Program (PEEP), will begin to receive onsite services. Students in the K-5 visually and behaviorally structured programs, Special Day Classes at Dos Caminos and Rancho Rosal and specialized middle school programs (FACT, visually and behaviorally structured) will be phased in after this date.

Reopening Timeline
As a District, we want to make sure we can successfully transition from distance learning to the modified traditional model. In addition to an enormous instructional shift, this means a change in operations for campus supervision, custodial services, food service, transportation, and technology. While we continue our conversations internally, we want staff and families to know we are looking at a phased approach where our youngest students and regional elementary special education programs would begin in person instruction first, as early as the October 26. We will present a timeline with dates to the School Board next Thursday which will be shared out to you in the Friday update.

Transition to A/B Cohorts and Student Supervision
Our plan to phase in modified traditional will cause a slight delay in the student supervision program. PVSD does not have the physical space and staffing to house both students currently in the program while in distance learning and new students returning to campus. We are working through the timeline, space, and staffing issues. Once all logistics are complete, campus principals will communicate start dates and the enrollment process for the new program while in modified traditional.

We have partnered with our local Boys and Girls Club of Camarillo to assist us with providing a safe space for students to engage in learning on days when they are not
scheduled for in-person learning. Due to this being a space available program, we will be prioritizing TK-8 children of staff and the families of essential workers.

**Public Health Informational Webinar**
PVSD continues to be in contact with the experts at Ventura County Public Health. On Tuesday, they hosted a meeting with our staff. In addition to a robust question and answer period, Public Health provided detailed data for Ventura County and the city of Camarillo. The family information sessions are scheduled for **Monday, October 12**, with the English presentation at 5pm, followed by a 6pm presentation in Spanish.

- Link for 5pm presentation in English: [https://zoom.us/j/92492890772?pwd=MkdXbzJOWTNSeH1DeFpORWc4REtZdz09](https://zoom.us/j/92492890772?pwd=MkdXbzJOWTNSeH1DeFpORWc4REtZdz09)  
  Passcode: j8Tzc4
- Link for 6pm presentation in Spanish: [https://zoom.us/j/94692236707?pwd=cUQ0dEtsVVxMzVRcTA2M0dIaE4rUT09](https://zoom.us/j/94692236707?pwd=cUQ0dEtsVVxMzVRcTA2M0dIaE4rUT09)  
  Passcode: 54jpNu

As a reminder, Public Health has asked we collect questions for them ahead of the meeting. Here is the [form](https://zoom.us/j/94692236707?pwd=cUQ0dEtsVVxMzVRcTA2M0dIaE4rUT09) shared last week. Please enter your questions for Public Health by Monday at 8am.

**Blueprint Metrics for 93010 and 93012**
Overall, our County’s disease transmission metrics continue to improve, including all cities and zip codes. The 93010 and 93012 zip codes have done a fantastic job of decreasing COVID-19 positivity rates. The most current California Department of Public Health measurement week ended September 26. While Ventura County’s positivity rate moved from 7.0 to 5.5, the numbers in our city are much lower. In the 93010 zip code, it was 3.5. In 93012, it was 1.7. Case rates are also on the decline. The latest data we have is for the week ending September 12. For 93010, the 7-day average case rate is 1.9 and 4.2 for 93012.

In fact, Public Health shared that in Camarillo, our data would put us in the orange tier.

I am grateful for your patience, comments, ideas, and support as we work through these circumstances together. Please continue to check our [District Website](https://zoom.us/j/94692236707?pwd=cUQ0dEtsVVxMzVRcTA2M0dIaE4rUT09) and the [Pleasant Valley School District Coronavirus Page](https://zoom.us/j/94692236707?pwd=cUQ0dEtsVVxMzVRcTA2M0dIaE4rUT09) for the latest information.

Respectfully,

Angelica M. Ramsey, Ed.D.
Superintendent of Schools

*93003 includes cases from Main Jail Outbreak for the week of September 12; rate would 5.8 with those cases removed.
9 de octubre de 2020

Estimado personal y comunidad de PVSD,

Estoy muy orgullosa de nuestra comunidad por el progreso que hemos logrado en nuestra lucha contra COVID-19. El martes, el condado de Ventura anunció en un comunicado de prensa en inglés y español que explica que el condado de Ventura se ha movido al nivel rojo en el Plan estatal para una economía más segura. La Oficina de Educación del Condado de Ventura compartió su propio comunicado de prensa para proporcionar contexto adicional para las escuelas. Según lo declarado por la Oficina del Condado, existen complejidades que cada sistema escolar debe superar para poder reabrir de manera segura.

**Incorporación Progresiva con Grupos Pequeños**

El estado ha brindado la oportunidad de traer de regreso pequeños grupos de estudiantes antes de que reabramos. Comenzaremos trayendo de regreso a los programas de educación especial al campus. A partir del 12 de octubre, nuestros estudiantes inscritos en el Programa de Educación Temprana Preescolar (PEEP por sus siglas en inglés) comenzarán a recibir servicios en el campus. Los estudiantes en los programas estructurados visualmente y conductualmente de grados K-5, las clases de educación especializada en Dos Caminos y Rancho Rosal y los programas especializados de la escuela intermedia (FACT, clases estructuradas visualmente y conductualmente) se incorporarán gradualmente después de esta fecha.

**Cronología de Reapertura**

Como distrito, queremos asegurarnos de que podamos realizar una transición exitosa del aprendizaje a distancia al modelo tradicional modificado. Además de ser un enorme cambio de instrucción, esto significa un cambio en las operaciones referente a la supervisión del campus, los servicios de limpieza, el servicio de alimentos, el transporte y la tecnología. Mientras continuamos nuestras conversaciones internamente, queremos que el personal y las familias sepan que estamos planificando una reapertura por etapas en el que nuestros estudiantes más jóvenes y los programas regionales de educación especial de primaria comenzarán la instrucción en persona primero, a partir del 26 de octubre. Presentaremos la cronología con fechas a la mesa directiva del distrito el próximo jueves y se les compartirá en la actualización del viernes.

**Transición a Grupos A / B y Supervisión de Estudiantes**

Nuestro plan de introducir gradualmente el modelo tradicional modificado causará un breve retraso en el programa de supervisión de estudiantes. PVSD no tiene el espacio físico
ni el personal para colocar a los estudiantes que actualmente están en el programa mientras están en aprendizaje a distancia y los estudiantes nuevos que regresan al campus. Estamos trabajando en los problemas referente a la cronología, espacio y personal. Una vez que se complete toda la logística, los directores de las escuelas comunicarán las fechas de inicio y el proceso de inscripción.

Nos hemos asociado con nuestro Boys and Girls Club local de Camarillo para ayudarnos a proveer un espacio seguro para que los estudiantes participen en el aprendizaje en los días en que no están programados para el aprendizaje en persona. Debido a que este es un programa de espacio disponible, daremos prioridad a los niños en los grados TK-8 del personal y las familias de los trabajadores esenciales.

**Seminario Web Informativo del Departamento de Salud Pública**
PVSD continúa en contacto con los expertos del Departamento de Salud Pública del Condado de Ventura. El martes, organizaron una reunión para nuestro personal. Además de un período sólido de preguntas y respuestas, Salud Pública proporcionó datos detallados para el condado de Ventura y la ciudad de Camarillo. Las sesiones de información familiar están programadas para el lunes 12 de octubre, con la presentación en inglés a las 5 pm, seguida de una presentación a las 6 pm en español.

El enlace para la presentación de las 5:00 pm en inglés:
[https://zoom.us/j/92492890772?pwd=MkdXbzJOWTNSeHlDeFpORWc4REtZdz09](https://zoom.us/j/92492890772?pwd=MkdXbzJOWTNSeHlDeFpORWc4REtZdz09)
Código de acceso: j8Tzc4

El enlace para la presentación de las 6:00 p.m. en español:
[https://zoom.us/j/94692236707?pwd=cU00dEtsVEVvxMzVReTA2dIaE4rUT09](https://zoom.us/j/94692236707?pwd=cU00dEtsVEVvxMzVReTA2dIaE4rUT09)
Código de acceso: 54jpNu

Como recordatorio, el departamento de Salud Pública nos ha pedido que recopilemos preguntas para ellos antes de la reunión. [Aquí está](https://example.com) el formulario compartido la semana pasada. Ingrese sus preguntas para el Departamento de Salud Pública antes del lunes a las 8 am.

**Métricas de Planes Referente a los Códigos Postales 93010 y 93012**
En general, las métricas de transmisión de enfermedades de nuestro condado continúan mejorando, incluyendo todas las ciudades y códigos postales. Los códigos postales 93010 y 93012 han hecho un trabajo fantástico en disminuir las tasas de positividad de COVID-19. La última semana que midió el Departamento de Salud Pública de California terminó el 26 de septiembre. Aunque la tasa de positividad del condado de Ventura pasó de 7.0 a 5.5,
las cifras en nuestra ciudad son mucho más bajas. En el código postal 93010, era 3,5. En el código postal 93012, fue 1,7. Las tasas de casos también están disminuyendo. Los últimos datos que tenemos son para la semana que finalizó el 12 de septiembre. Para el código postal 93010, la tasa de casos promedio de 7 días es 1.9 y 4.2 para el código postal 93012. De hecho, el Departamento de Salud Pública compartió que en Camarillo, nuestros datos nos colocarían en el nivel naranja.

Estoy agradecida por su paciencia, comentarios, ideas y apoyo mientras navegamos juntos estas circunstancias. Continúe revisando nuestro sitio web del distrito y la página de coronavirus del distrito escolar de Pleasant Valley.

Respetuosamente,

[Assanged Signature]

Angelica M. Ramsey, Ed.D.
Superintendente of Escuelas
